

First Aid

2023 – 2024

Thorpe Primary School welcomes our duties under the Equality Act 2010 to eliminate discrimination, advance equality of opportunity and foster good relations in relation to age (as appropriate), disability, ethnicity, gender (including issues of transgender, and of maternity and pregnancy), religion and belief, and sexual identity.

We welcome our duty under the Education and Inspections Act 2006 to promote community cohesion.

We recognise that these duties reflect international human rights standards as expressed in the UN Convention on the Rights of the Child, the UN Convention on the Rights of People with Disabilities, and the Human Rights Act 1998.

1. Aims

The aims of our first aid policy are to:

- Ensure the health and safety of all staff, pupils and visitors;
- Ensure that staff and governors are aware of their responsibilities with regards to health and safety;
- Provide a framework for responding to an incident and recording and reporting the outcomes.

3. Roles and responsibilities

3.1 Appointed person(s) and first aiders

The school's appointed first aiders are responsible for:

- Taking charge when someone is injured or becomes ill;
- Ensuring there is an adequate supply of medical materials in first aid kits, and replenishing the contents of these kits;
- Ensuring that an ambulance or other professional medical help is summoned when appropriate.

First aiders are trained and qualified to carry out the role (see section 7) and are responsible for:

- Acting as first responders to any incidents; they will assess the situation where there is an injured or ill person, and provide immediate and appropriate treatment;
- Liaising with core SLT to send pupils home to recover where necessary;
- Filling in an accident report on the same day, or as soon as is reasonably practicable, after an incident;

Our first aiders are listed in **appendix** . Their names will also be displayed prominently around the school.

3.2 The Academy Committee

The Academy Committee has ultimate responsibility for health and safety matters in the school, but delegates operational matters and day-to-day tasks to the headteacher and staff members.

3.4 The headteacher

The headteacher is responsible for the implementation of this policy, including:

- Ensuring that an appropriate number of trained first aid personnel are present in the school at all times;
- Ensuring that first aiders have an appropriate qualification, keep training up to date and remain competent to perform their role;
- Ensuring all staff are aware of first aid procedures;
- Ensuring appropriate risk assessments are completed and appropriate measures are put in place;
- Undertaking, or ensuring that managers undertake, risk assessments, as appropriate, and that appropriate measures are put in place;
- Ensuring that adequate space is available for catering to the medical needs of pupils;
- Reporting specified incidents to the HSE when necessary (see section 6).

3.5 Staff

School staff are responsible for:

- Ensuring they follow first aid procedures;
- Ensuring they know who the first aiders in school are;
- Completing accident reports for all incidents they attend to where a first aider is not called;
- Informing the headteacher or their manager of any specific health conditions or first aid needs.

4. First aid procedures

4.1 In-school procedures

In the event of an accident resulting in injury:

- The closest member of staff present will assess the seriousness of the injury and seek the assistance of a qualified first aider, if appropriate, who will provide the required first aid treatment;
- The first aider, if called, will assess the injury and decide if further assistance is needed from a colleague or the emergency services. They will remain on scene until help arrives;
- The first aider will also decide whether the injured person should be moved or placed in a recovery position;
- If the first aider judges that a pupil is too unwell to remain in school, they will liaise with a senior leader; parents will be contacted and asked to collect their child. Upon their arrival, the first aider will recommend next steps to the parents;
- If emergency services are called, parents will be contacted immediately; this is likely to be the office staff or a member of SLT;
- The first aider or relevant member of staff will complete an accident report form on the same day or as soon as is reasonably practical after an incident resulting in an injury
- There will be at least 1 person who has a current paediatric first aid (PFA) certificate on the premises at all times.

4.2 Off-site procedures

When taking pupils off the school premises, staff will ensure they always have the following:

- A school mobile phone
- A portable first aid kit
- Information about the specific medical needs of pupils
- Parents' contact details

Risk assessments will be completed by the visit lead prior to any educational visit that necessitates taking pupils off school premises.

For EYFS, there will always be at least 1 first aider with a current paediatric first aid (PFA) certificate on school trips and visits, as required by the statutory framework for the Early Years Foundation Stage.

5. First aid equipment

A typical first aid kit in our school will include the following:

- A leaflet with general first aid advice
- Regular and large bandages
- Eye pad bandages
- Triangular bandages
- Adhesive tape
- Safety pins
- Disposable gloves
- Antiseptic wipes
- Plasters of assorted sizes
- Scissors
- Cold compresses
- Burns dressings

No medication is kept in first aid kits.

First aid kits are stored in labelled first aid areas in the corridors.

6. Record-keeping and reporting

6.1 First aid and accident record book

- An accident form will be completed by the first aider/relevant member of staff on the same day or as soon as possible after an incident resulting in an injury;
- As much detail as possible should be supplied when reporting an accident, including all of the information included in the accident form;

The Business Leader will keep a record of any accident which results in a reportable injury, disease, or dangerous occurrence as defined in the RIDDOR 2013 legislation (regulations 4, 5, 6 and 7). Safety Cloud will be used for this.

The Business Leader will report these to the Health and Safety Executive as soon as is reasonably practicable and in any event within 10 days of the incident.

Reportable injuries, diseases or dangerous occurrences include:

- Death
- Specified injuries, which are:
 - Fractures, other than to fingers, thumbs and toes
 - Amputations
 - Any injury likely to lead to permanent loss of sight or reduction in sight
 - Any crush injury to the head or torso causing damage to the brain or internal organs
 - Serious burns (including scalding)
 - Any scalding requiring hospital treatment
 - Any loss of consciousness caused by head injury or asphyxia
 - Any other injury arising from working in an enclosed space which leads to hypothermia or heat-induced illness, or requires resuscitation or admittance to hospital for more than 24 hours
- Injuries where an employee is away from work or unable to perform their normal work duties for more than 7 consecutive days (not including the day of the incident)
- Where an accident leads to someone being taken to hospital
- Near-miss events that do not result in an injury, but could have done. Examples of near-miss events relevant to schools include, but are not limited to:
 - The collapse or failure of load-bearing parts of lifts and lifting equipment
 - The accidental release of a biological agent likely to cause severe human illness
 - The accidental release or escape of any substance that may cause a serious injury or damage to health
 - An electrical short circuit or overload causing a fire or explosion

6.3 Notifying parents

The relevant member of staff will inform parents of any accident or injury sustained by a pupil, and any first aid treatment given, on the same day, or as soon as reasonably practicable. This is likely to be the first aider or a class teacher.

When a head injury has been sustained, parents must always be informed as soon as possible; they should be asked to collect their child so that they can closely monitor them or seek medical support.

When a child has a visible injury, particular care should be taken to contact parents to inform them before collection.

7. Training

All first aiders must have completed a training course, and must hold a valid certificate of competence to show this. The school will keep a register of all trained first aiders, what training they have received and when this is valid until (see appendix).

Staff are encouraged to renew their first aid training when it is no longer valid.

At all times, at least 1 staff member will have a current paediatric first aid (PFA) certificate which meets the requirements set out in the Early Years Foundation Stage statutory framework and is updated at least every 3 years.
