**Summary:**

We have worked extremely hard at Thorpe School to ensure that the attainment gap is narrowed between pupil premium children and the rest of the school. The data above reflects this. Overall, our pupil premium children in most year groups are reaching end of year expectations in reading and maths similar to that of their peers.

One of our key strategies was the use of additional teaching assistant hours to target individual or small groups to support basic literacy and numeracy skills. Half termly meetings with teachers and teaching assistant to discuss interventions and progress of children have been particularly successful in ensuring the needs of our pupil premium children are met. As well as this, our increased parental involvement strategies to ensure effective home/school links has significantly contributed to the progress and attainment of key pupil premium children particularly in year 5 and 6.
