

5th February 2013

Dear Parents

Keeping up with the children on the internet!

The online world is now an integral aspect of our lives, and access to the internet is available like never before.

For parents, this has opened up a whole new world of things to be aware of, and it is essential for young people and their parents to understand how to reduce the inherent risks associated with technology.

This week, your child is learning how to keep safe on the internet, and today we are sending home a leaflet, 'Know it all', for you to read and share with your family. We are also offering information sessions for parents. These are on Monday 4th March 2013; look out for the letter coming home.

We hope you will find both the leaflet and the sessions useful, and help you to be as *good a parent online as you are offline*.

Yours sincerely

Emma Anderson
Deputy Headteacher
